Ron Polk serves as the liaison to owners for quarterly water sampling and distributing paper notices when a water operator identifies a problem with the system.

Emergency/problem notification

In the event of a water line leak, loss of water supply, a flashing red light on the pole next to the well house, or other problem, immediately call a water operator (Rick Welch, George Oja, or Fred Brockman). Make a special effort to talk to someone versus only leaving a phone message.

Connecting to the water system

A new connection requires an application to the Water Committee. **Approval must be received prior to contacting Jones Excavation.** The Application is located on the Water System page.
