

Instructions/Application for Registering Intent to Connect to the HLOA Community Water System

1. Connection to the HLOA Community Water System requires approval of the HLOA Water System Committee. Using the form below (please copy, paste, enter information, and print), owners need to identify which meter box is intended for the connection. If assistance is needed in determining which box to use, please contact Fred Brockman (541-569-2050) or a member of the water system committee.
2. All connections are to be made by Terry Jones of Jones Excavating (541-569-2324) who is familiar with the HLOA water system and meter boxes.
3. **Under no circumstances is a connection to be made outside of the existing water meter boxes.** Failure to comply may limit service available to the owner.
4. Please "cut and paste" this application to a new page, then complete the application and mail to Fred Brockman (email available by calling 541-569-2050).

Application for Connection to the HLOA Community Water System

Name

Lot number

Date to connect

Describe in detail the location of the meter box for the desired connection
